Need expert advice? You will want the best  
accountant you can get...

Legally anyone can call themselves an 'accountant' – they don't need any qualifications, training or experience.

ICAEW Chartered Accountants are financial experts with the knowledge, initiative and judgement you can trust.

**What does 'chartered' mean?**

The chartered title is an internationally recognised professional designation which can be used by qualified professionals including accountants, engineers and surveyors. It demonstrates the highest standards of ethical and professional conduct, up-to-date technical expertise and capability of a qualified professional.

# What's an ICAEW Chartered Accountant?

ICAEW Chartered Accountants can be recognised by the ACA or FCA after their name.

They are:

- committed to continuing professional development training every year to keep their knowledge and skills up-to-date
- members of ICAEW – The Institute of Chartered Accountants in England and Wales
- bound by our Code of Ethics and subject to our disciplinary procedures
- required to hold a practising certificate and professional indemnity insurance if they offer professional services to the public
